

## Summary

Motivated and technically skilled Electrical and Computer Engineer with a strong background in electronics maintenance, software development, and networking.

Passionate about applying engineering and digital technologies to support community development, education, and innovation initiatives. Experienced in Arduino-based automation, ICT systems, and technical capacity building. Dedicated to teamwork, learning, and contributing to the goals of humanitarian and development organizations..

## Languages

- ❖ Amharic (Native),
- ❖ English (Fluent)

## Hobbies

- ❖ Reading,
- ❖ Research,
- ❖ Problem-solving
- ❖ Family Support

## Project and publication

Arduino-Based Design and Controlling of Office Appliance System. Developd and published a smart system project focused on efficient automation using Arduino microcontrollers.

## Certificates and Recognition

- ❖ Arduino-Based Office Appliance System Assosa University Technology and Innovation Linkage Director.
- ❖ NATIONAL VOLUNTARY COMMUNITY SERVICE by Ministry of Peace and Ministry of Education

Addis Ababa

## Education

I graduate from Assosa University Bachelor's Degree in Electrical and Computer Engineering by GPA 3.01 and EXIT EXAM-83% PASS

Graduation Date: June 21,25

## Experience

### Network Engineer, Ethio Telecom, 2024-2025 G.C

Network configuration, management, monitoring, security, fault.

- Service provisioning, maintenance.

### Software Intern Assosa University

- Contributed to software development and system automation tasks.
- Gained experience in IOT systems and practical Arduino

applications

## Skills

### Electrical Engineering

Circuit Analysis, Design & Simulation (using MATLAB,Proteus, Multisim)Electrical Machines & Power Systems (Operation, ControlMaintenance) Electronics Maintenance (Digital & Analog systems)Embedded Systems & Microcontrollers (Arduino,raspberry Pi)Smart Automation & IoT-based Electrical ControSystem

### Computer & Programming

Programming: Python, Java, JavaScript, PHP - Networking: Configuration, Monitoring, Security, QoS,RoutingSoftware Development & System AutomationGraphic Design & Video Editing

### Other Skills

Strong teamwork, leadership, and problem-solving skills - Technical Report Writing & Presentation
